

Disclaimer: This e-book was created to show people how to make money online. That means that it was created for educational purposes only. Some techniques on this e-book break the TOS of some websites. Try them at your own risk. I will not be held liable for any illegal actions made by people who get a hold of this report.

Introduction

Hi there! Today is your lucky day! As soon as you have finished reading this book you will be fed-up with good IM knowledge that can possibly make you rich online.

Don't get me wrong. This is not one of those phony e-books: "how to make 100, 000 a day". However, with the information in this report you can easily start making a 100\$ daily even if you have no experience in IM whatsoever...

Trying all these methods together may be confusing, so I suggest that you pick one method and work on it until you start making at least \$50 a day. Then you can skip to the other methods so that you can increase your income online.

Alright, Let's get down to business!

Gambling affiliates & Viral E-books

Did you know that online gambling affiliates are one of the most high-paying affiliates? A lot of gambling affiliates usually pay \$100-\$300 for every active gambler that you refer.

That means that all you need to make \$100 daily is find one active gambler every single day. Can it get any simpler than this?

Of course if you are a beginner in IM, this may be out of your league but don't worry, I am here to teach you everything.

Before I start telling you how to make money with this method I want to cover one last point. To get a commission from these affiliate companies, the gamblers you refer must make a deposit. That's why I told you that the gamblers must be "active". So in this case, we can't just fool people into joining this gambling company. We have to find real gamblers that are willing to play!

Making money with this method

First of all you have to sign up with a good affiliate. I suggest www.casinoblasters.com (affiliate of golden palace). They pay you \$100-\$300 for each person that you refer.

You can also choose the rev share option. They will split the revenue they earn from your referrals 50/50...

Your choice ☺

I prefer the \$100-\$300 option.

Once you sign up with an affiliate company, you have to get traffic to get people to join.

Step 1

Do a quick search on the internet for articles and e-books related to gambling. You can search for:

“How to play poker online”

“How to increase your chances of winning when gambling online”

“How to play roulette”

“Online poker strategies”

Basically you can search for anything that is about online gambling.

Step 2

Once you get some ideas, you have to create an e-book. A 2-3 page e-book will do just fine.

- You can either invent a guide yourself.
- You can re-write the stuff that you see on other e-books.
- You can be a bad boy and copy the entire e-book, then make some minor changes at the beginning and at the end.

Whichever you like ☺

Make sure that you include your affiliate link in the e-book at least once.

For example: *If you are interested in online gambling, the best company to joins is [Your Affiliate link]*

I suggest that you create several e-books.

More E-books = More Referrals = More Money

If the e-books are good and convincing enough, people will read them and join the online gambling company from your affiliate link!!

Now the only thing left to do is to distribute these e-books to as many people as you can!

Step 3

The best thing to do is to distribute them for free! The best thing about an e-book is... it can go VIRAL!

You can start off by sharing them on related forums. You can find several forums related to online gambling, just do a quick search on google or head over to www.big-boards.com

Step 4

Have you ever heard of www.scribd.com?

Basically scribd.com is a website that allows people to share and download e-books for free. Make sure that you upload all of your e-books on it.

Step 5

Another good website is www.slideshare.net. Slideshare allows you to upload power point presentations. Open up your Microsoft PowerPoint and paste all of the e-books' information onto Powerpoint presentations. Save the presentations and upload them on slideshare.

Step 6

Sign up to some torrent sites and upload the e-books on them. A lot of people underestimate this technique. They think that people will not download e-books from torrent sites. Well, they're wrong. I have e-books on torrent sites that get downloaded at least **50** times a day... and that's only from one torrent site.

The only trick here is to make a catchy title!

How to play poker – Bad title

How to play online poker – Better title

How to play and win online poker – Good Title

\$27 Underground E-book – How to be a champion in online poker games – **BEST TITLE**

Good torrent sites:

www.Piratebay.org
www.Torrentreactor.net
www.Extratorrent.com
www.Btmon.com
www.Mininova.org
www.Isohunt.com
www.Sumotorrent.com

That should be enough 😊

Once you sign up with these torrent sites, just download azureus or utorrent so that you can start uploading torrent files. There are a bunch of guides about uploading torrents, just search for them on google. I learned about uploading torrents in just a few minutes, it's pretty easy.

Method conclusion and suggestions

That should be all. Remember that the people that read the e-books will be already interested in online gambling. Therefore, you can easily get good conversions if you create good e-books.

Imagine that you convert @ 1:20. (very doable)

That means that for every 20 people that visit your link, you will earn a \$100!!

If you follow these distribution techniques given to you correctly, you can easily get 100s of readers every single day!

+ With these techniques your e-books could easily go VIRAL!!

Just imagine the potential of that!!! 😊

Did you like that method?

Yes?

... and we're just getting started 😊

Monetizing CPA offers with youtube

CPA means Cost Per Action. CPA networks will pay you every time that a visitor fills up one of their offers. You can easily make some big bucks if you find a good offer and promote it heavily. It seems that the best ways to promote CPA offers is by video sharing sites (ex. Youtube) or PPC (ex. Adwords).

Adwords requires money, so I suggest that you stick with this method below if you don't have money to spare.

Making Money with this method

First you have to sign up with some decent CPA networks. It may take a while before you get accepted as a publisher into a CPA network. Therefore I suggest that you move on to another method whilst you're still in queue.

Ideal CPA Networks:

www.maxbounty.com

www.cj.com

www.neverblueads.com

www.copeac.com

Then you have to sign up with youtube so that you can upload videos.

Step 1

Search on the internet for something that is on demand right now. You need to find a hot product that is currently a good seller in the market. A good way to do this is to go to <http://www.google.com/trends/hottrends>

Hot trends is an amazing tool that shows you the current most popular searches on google. Anyway, there are a lot of ways to find a good product that sells. For example, currently there is a craze about iPhones and iPods.

Find a good offer about iPhones or iPods from a CPA network and store the affiliate link.

Step 2

The next step is to make a video. Now I know that most of you have never created a video in your life but believe me it's very easy and it's worth it.

Now there are two ways of doing this:

White hat

Make a simple video with the use of PowerPoint then you can edit it by camtasia or windows movie maker. The video must be catchy, with a little background music. You can search for related videos on video sharing sites to get some ideas.

Black Hat

Search on youtube for videos related to your offer and download them to your PC. You can do this by www.downloadyoutubevideos.com. The files will be saved as .flv, download a converter and convert them to .mpeg or .wmv.

Now, if you upload the exact same video, it will probably get deleted immediately.

You need to make it a little different. You can simply cut the introduction or add a black screen at the end or at the beginning.

Step 3

Buy a domain name related to the product and forward it to the offer. As always I like to use .com. However, if you don't have enough money, then I recommend a .info domain. They're very cheap, usually about \$1 a year and they are still good for the job.

Upload the video and type in the url in the description. You can also use windows movie maker to add the url in the video. You can use camtasia to watermark it with your url and/or you can use annotations.

Make sure that you write down a long description and to add as many text as you can! Copy the tags and paste them in your description and make a long and catchy title.

That should be it.

Now all you have to do is wait for the money to roll in. If you are not getting any views you can always download tubinator to spoof them and the rankings.

Views will bring More Views ;)

You can always take this to the next level by uploading the same videos on other video sharing sites such as:

www.Veoh.com

www.Revver.com

www.Megavideo.com

www.Dailymotion.com

www.Metacafe.com

Making Money from Webmasters

Before I start telling you about this method, I'd like to say that this is one of my best methods. By that I mean that I make about 50% of my money online by this method!

This method requires more time than the others mentioned here but I can assure you that it's worth every minute!

What is the one thing that every webmaster needs?

... WEB HOSTING!

Each and every webmaster needs to host his websites somewhere right?

1000s of people become webmasters every single day and 1000s of them are looking for web hosting services!

That means that there's a lot of \$\$\$\$\$ to be made from this niche ☺

Making Money with this Method

As usual the first thing that you need to do is to sign up with web hosting affiliates and buy a domain or make a free blog at www.blogger.com or www.wordpress.com

Now we can do this in two ways, we can choose one affiliate and promote it directly (forwarding the domain to the affiliate link) or we can create a good review page and promote different web hosting companies.

Your choice ☺

Anyway the promotion methods will still remain the same. A good web hosting company that has an affiliate section is:

www.hostgator.com

Now with targeted traffic I usually convert @ 1:23 or less. That means that if you use hostgator you will earn \$50 for each person that you refer or \$125 if you exceed 21 referrals per month!

Just imagine... if you refer a webmaster every day, you will earn \$3750 a month with hostgator! 😊

Step 1

Sign up with hostgator or any web hosting company that you like. Create a review page on a blog or domain, or forward the domain to your affiliate link.

Step 2

1. Create an account on <http://forums.digitalpoint.com>
2. Place your link with GOOD anchor text in your signature.
3. Participate in the forum to increase your signature's visibility.
4. I suggest that you make at least 10 posts and create 1-2 threads a day.
5. You can even contact somebody with a high post count and pay him to use his signature 😊

Just remember:

More Posts = More signature visibility

In my opinion DP has the most effective signature. I get about 50-100 targeted visitors daily from a DP account with 1000 posts.

That's a sale or two every day just from DP sig ;)

BTW it only took me about a month to raise my post count to 1000. It requires a bit of work but it'll certainly pay off! Remember a sale a day with hostgator becomes \$125 every day 😊

Yeah, DP signature is great! However, I still suggest that you do this on other webmaster forums such as:

www.warriorforum.com

www.sitepoint.com

www.webmasterforums.com

Step 3

1. Search for articles related to web hosting and copy them onto a doc file.
2. Re-write them in your own words with some good long tail keywords.
3. Give the articles a catchy title and submit the articles to www.ezinearticles.com (Make sure that you include long tail keywords in your tags)
4. When the articles get accepted on ezine you can submit them to:
 - www.articlesbase.com
 - www.scribd.com
 - www.searchwarp.com
 - www.goarticles.com
 - www.slideshare.com

Method's conclusion and suggestion

Keep working on steps 3 and 4. Believe me making a sale in the web hosting niche is really EASY!!!

Follow all of these steps exactly and keep working until you make your first sale. Then all you have to do is rinse and repeat. After some time this method will keep working on its own 😊

Sophisticated E-whoring

I'm sure that most of you have heard of the word e-whoring. Basically it involves a guy that pretends to be a girl online to fool others into joining dating or webcam companies under his (her) affiliate link.

When I first started online I read about this method on a forum and I tried it.

- I signed up with <http://www.adultfriendfinder.com>
- I used tinyurl.com or notlong.com to make my affiliate link shorter.
- I made up a hotmail account and installed MSN.
- I visited some adult chat rooms and I said something like "Add me on blalablahotieXX@hotmail.com if you want to have a good time :P"
- I went back at msn and started to talk to the people that added me. I used to convince about half of them to sign up under my affiliate link and I was making about \$50 a day.

That's some good money if you don't have any kind of skills on IM. All you have to do is chat!

But in the end, I got tired of it so I came up with a new better method of my own which I decided to name Sophisticated E-whoring!

How to make money with this method

Sign up with an online dating affiliate such as:

<http://www.adultfriendfinder.com>
<http://www.iwantu.com>

Go to tinyurl.com or notlong.com to make your affiliate url shorter.

Create a gmail account and choose a good short attracting e-mail name such as Lizaishot89@gmail.com. Go to a social network such as facebook, hi5 etc... and create an account with your gmail address.

Step 1

The first step is to set up a nice profile on your social network. Now remember you are going to be a girl, so I suggest that you find some photos of a good looking girl. You can go to www.imagefap.com for that.

- Choose a girl and save all of her photos.
- Choose a non-nude photo of her and put it as main photo. You can add another non nude photo to make the profile more realistic.
- Add a nice biography like this:

"Hi, I'm a 20 year old girl and I live in (whatever). I've decided to make this profile to make new friends and meet new men.

I'd like to chat a lot with different people, share pics, play games and have some fun ;)

Anyway, if you are interested in knowing and seeing more pics of me you can e-mail me on (yourgmailemail@gmail.com)"

- Add a similar short message with your e-mail on your status bar.
- Add at least 100 people as friends. The more you add the better.
- People will keep adding you and make sure that you accept all of them as friends.

Step 2

Now if you have followed "step 1" correctly, you will start receiving a lot of e-mails (depends on the amount of friends).

All you have to do now is set up a nice message and e-mail them back with your affiliate link. Example:

"[invent a message and end it with this line->>]..... I have some nude pics you know ;) I saved them on (your affiliate link)"

Stuff like that. Be creative and be REAL!

Method's conclusion and suggestions

I suggest that you e-mail them back manually depending on their message. But, if you get tired of it you can always set the gmail autoresponder and leave the method on autopilot.

All you have to do now is to keep adding friends from time to time and make sure that you accept all friend requests!

If you choose the \$1 option from AFF you'll earn \$1 from every person that joins from your affiliate link.

This may not seem much, but what if 100s of people start to e-mail you everyday?

It's not impossible... there are a lot of perverts out there and it's your job to monetize them 😊

NOTE: This method can also be done with web cam affiliates such as www.webcams.com. You might want to check them out ;)

Making Money from Classifieds Ads

If you want to make some quick cash, I suggest that you start off with this method first. To begin with this method all you have to do is sign-up to some CPA network and a classified website.

Obviously the most ideal classified website would be

www.craigslist.org

Other good ones are:

www.gumtree.com

www.usfreeads.com

www.kijiji.com

Ideal CPA Networks for this are:

www.maxbounty.com

www.cj.com

www.neverblue.com

www.copeac.com

Anyway, once you sign-up with one or two classified and CPA sites you can start cashing out by applying the method listed below.

Step 1

Go to your CPA networks and search for hot products in the market such as iphones

I'm going to assume that you are using craigslist. So, head over to craigslist and put up some ads like this:

Title: Iphone for free!

"I have an Iphone that I want to get rid off. I don't use it anymore and I'm thinking of buying something better.

It's a little scratched up but it works just fine. Anyway I thought of offering it here for free instead of dumping it.

*I'm sure that some people will be happy to get an iphone for free. If you want it just e-mail me on (youremail@whatever.com)
FIRST COME FIRST SERVE!"*

Step 2

Now just sit tight and wait. You will start to get a lot of e-mails within a few minutes. Now most people that know this method will lose a lot of money because they set up an autoresponder. Some people will realize that the reply was made by an autoresponder and they will flag your ad.

However, if you be patient and respond to all of the e-mails manually, you'll generate much more leads and your ads will stick!

You can e-mail them back with something like this:

"Sorry man, someone e-mailed me about the iphone before you. There are definitely a lot of people out there that want an iphone.

You were late by just a few minutes. :/ If you want one so badly, you can go here [your affiliate link]. That's where I got mine for free.

Hope that helps, Take care"

Method Conclusion and Suggestions

Usually about 25% of the people will click on your affiliate link and fill up the offer!

If you promote a \$5 offer and 20 people fill it up, you will earn a \$100.

It's very easy and you can do this with anything you want and every time you want. You can do it for a toy a cooker... anything.

People will definitely try to get something for free!

Easy Articles for Easy Money

Did you know that a UNIQUE article with good grammar is usually worth about \$2-\$10?

Have you ever heard of www.associatedcontent.com? Basically this site pays you \$1-\$20 for every unique article that you submit on it. They will also pay you \$1.50 per 1000 views.

Unfortunately the upfront payment is only available for US citizens. I am from Europe and I had to quit using this method because I was only getting paid for the views.

If you are from the US, this may be a goldmine for you! If you don't live in the US I suggest that you keep reading anyway since I'm about to reveal some easy ways to get unique articles. (You can always sell them).

By the term "Unique Article", we understand that the article is original and never published on the net.

"never published on the net" **Get it?** That means that if you find an article on a book and publish it online, the article will still be unique because it has never been published online!

Here's how you can make some easy money with articles.

Method 1

1. Make sure that you have a scanner and an OCR
2. Get a bunch of books and scan their text so that you can form it into articles.
3. Go to AC and submit them so that you can get paid upfront! (if you're not a US citizen you can sell them)

Imagine if you submit just 20 and get paid \$5 for each one. You will earn \$100 😊

...and what did you do? Nothing! Just scanning and submitting...

Method 2

1. Search for a bunch of articles on ezine and copy them on a doc file
2. Download the software "Dragon Naturally Speaking" and install it on your PC.
3. Open up Dragon Naturally Speaking, set your microphone and speak up!
4. Dragon Naturally speaking will type in the text for you! All you have to do is find some articles and re-write them by talking instead of writing.

Method Conclusion and Suggestions

Some say that it's not that simple to make a lot of money with AC. But you don't need to worry. Articles can always be monetized, just sell them on elance or on webmaster forums such as WF.

This is definitely one of the best ways to earn a quick buck! 😊

The Best Advice that you'll ever get!

Did you read these methods? ... Good! Now choose one method, concentrate on it and get going!

These methods will NEVER get saturated! You can always twist them a little and find new offers!

Nothing will get done on its own! You have to take action! Just remember that these methods WORK!!

I can assure you that you will start to make a living from the internet if you follow this report STEP by STEP!

Good Luck!
